Purpose of Swiss Sport Integrity

Vision

Athletes can engage in sports in a safe, fair and doping-free environment

Mission

Swiss Sport Integrity makes vital contribution to the integrity of sport by means of testing, investigations, prevention work, applied research, receiving and investigating reports of ethical violations, and through national and international collaboration. Swiss Sport Integrity protects the right of athletes to equal opportunities, to fair and to doping-free sport, and thus helps to uphold the sporting credibility that the public expects.

The aims of the Swiss Sport Integrity Foundation are to combat doping, ethical misconduct and wrongdoing in sport in a sustainable and effective manner. In doing so, Swiss Sport Integrity is guided by international guidelines as well as the principles of the Doping Statute of Swiss Olympic and the Ethics Statute of Swiss Sport, and has the necessary international recognitions.

Values

- **Integrity:** We live by ethical standards and show honesty, stability and fairness in all our activities.
- **Independence:** We work in an unbiased, impartial, and objective manner.
- **Respect:** We treat others with the highest possible degree of dignity, equality and trust.
- **Reliability:** Our activities and actions are transparent, measurable, and clear.
- **Innovation:** We develop and promote forward-thinking, practical, and workable solutions and models.
- **Collaboration:** We promote collaboration within the team, and with national and international partners.

Strategic Goals

- **Organization:** We are an effective, transparent and recognized organization ensuring a high-quality standard.
- **Ethics violations & Reporting service:** We guarantee confidential treatment and consistent processing of the reports received as well as for initial consultation.
- **Testing & Intelligence:** We conduct doping controls in a professional and targeted manner, incorporating the latest scientific findings, and foster a successful network of informants and investigators.
- **Prevention:** We implement and support anti-doping education in Swiss sport and teach the most important rules, rights, and obligations.
- **Applied research:** We are actively engaged in international cooperations for innovative as well as interdisciplinary research.
- **Cooperation and partnership:** We are an active and reliable organization at the national and international level, involved in important networks and committees.
